PROFESSIONAL SUMMARY

Full Stack Developer with 9+ months of professional experience and 2+ years of coding fundamentals, delivering production web applications on the MERN and PERN stacks. Skilled in React.js, Next.js, TypeScript, Redux Toolkit, Node.js, Express.js, MongoDB and PostgreSQL, with a focus on responsive interfaces and scalable REST APIs. Ranked 1st out of 20,000+ students in Saylani Mass IT Training's Modern Web Application Development program (Batch-16). Experienced with AI-assisted development, real-time features and payment gateway integration.

TECHNICAL SKILLS

Frontend: React.js, Next.js, React Native, TypeScript, JavaScript (ES6+), Redux Toolkit, Tailwind CSS, Material UI (MUI), Mantine UI, Bootstrap, HTML5, CSS3, Responsive Design

Backend: Node.js, Express.js, REST APIs, Socket.io, Firebase, JWT Authentication

Databases: MongoDB (Mongoose), PostgreSQL (pgAdmin), Firebase Firestore

Tools & AI: Git, GitHub, Postman, Vercel, VS Code, npm, i18n, Cursor, GitHub Copilot, ChatGPT, Google Gemini API, OpenAI API

Practices: REST API Design, Component Reusability, Performance Optimization, SEO Basics, Agile Workflow

PROFESSIONAL EXPERIENCE

Junior Frontend / Full Stack Developer — AppMash Feb 2026 – Jun 2026

Karachi, Pakistan

- Built enterprise-level full stack web applications using the MERN and PERN stacks, including an ERP system (Barakah) and AI-powered platforms (Helplytics, Clinic Management System).
- Developed responsive, reusable frontend interfaces with React.js, Next.js and TypeScript using Tailwind CSS, Redux Toolkit, Material UI and Mantine UI.
- Designed and built RESTful APIs, Firebase backends and MongoDB/PostgreSQL database schemas for scalable applications.
- Integrated AI features (Google Gemini, OpenAI) for intelligent workflows, plus payment gateways (Stripe, Yaad) with automated PDF report generation.
- Built a real-time chat application (TalkBridge) with Socket.io and implemented multi-language (i18n) support for global user bases.
- Leveraged AI-assisted development tools (Cursor, GitHub Copilot, ChatGPT) to accelerate delivery, backed by strong manual coding fundamentals.

Frontend Developer Intern — AppMash Nov 2025 – Feb 2026

Remote — Karachi, Pakistan

- Delivered production-ready UI components and admin panel screens in React.js and Next.js; collaborated on code reviews and Git workflows, and was promoted to a full-time role after the internship.

KEY PROJECTS

Barakah — ERP Platform | Next.js, Node.js, MongoDB, Redux — Inventory, billing, HR and analytics.

SafeCircle PK — Family Safety App | React Native, Live Location, Push Alerts — Family tracker with live location, location history and SOS alerts.

PatternIntel — AI Health Pattern Tracker | React Native CLI, TypeScript, OpenAI GPT-4o-mini — Logs food/stress/sleep and symptoms; AI detects recurring correlations with confidence scoring.

CoreStock — Admin & User Panels | Next.js, TypeScript, Mantine UI, Redux — Inventory and warehouse dashboards.

RoadHelper — Roadside Assistance | MERN Stack, React Native — Self-initiated startup connecting drivers to help.

EDUCATION

Associate Degree Program (ADP), Software Engineering — Ilma University, Karachi 2025 – Present

Full Stack / MERN Stack Development — Saylani Mass IT Training (SMIT), Karachi Jan 2025 – May 2026

Intermediate (Pre-Engineering) — Govt. Degree College Buffer Zone, Karachi 2022 – 2024

Matriculation — Kamran Public School, Karachi 2008 – 2021

CERTIFICATIONS & ACHIEVEMENTS

- 1st Position — Saylani Mass IT Training, Modern Web Application Development, Batch-16 (2026): ranked #1 out of 20,000+ students.
- JavaScript, CSS & HTML Essentials — Cisco (2025) | Fundamentals of Agile & Predictive Project Management — PMI (2025).
- Front-End Development — Farooq-e-Azam Institute of IT (2024) | WordPress Development — Fixit Buffer Zone (2024).
- Certificate of Information Technology (CIT) — Info Channel, Karachi (2021).
